

## Team ODB

1-28-2022

### Agenda

1. IaC Standards
  - a. Joe - How are these coming along?
    - i. **Shared on Discord :)**
2. Google Analytics
  - a. Access at some point?
    - i. **Joe might export that data into AWS to expedite access**
3. AWS Account access
  - a. **Joe has found some good free training**
  - b. **Can get us access to their AWS account through single sign-on accounts**
  - c. **Look into pay structures - monitor costs and try to keep minimal but don't worry too much**
  - d. **Joe will give access through GVSU emails/accounts**
    - i. **Let him know if we can't get in early next week**
4. Moving GitHub to a private GVSU Repo
  - a. Unable to get ZenHub on the current repo. With a GVSU repo all that will be taken care of.
  - b. Can move everything back to ODB's GitHub at the end of the semester.
  - c. **Sounds good - need to contact professor after meeting**
5. Peer Reviews
  - a. Joe - do you want to be involved in code reviews?
    - i. **Not really.**
6. "Flow diagram" overview
  - a. <https://app.diagrams.net/#G1La71CgF5Om2uUvblzhm3xFAS4W63by3c>
  - b. **Looks good - don't forget IaM and security considerations**
7. Testing
  - a. How long from having our schemas for content cards to being in prod?
    - i. **Few days to a week or two.**
  - b. What kind of testing?
    - i. A/B, something else?
8. TEAM ONLY - Feasibility Study
  - a. Due by Monday at 4pm.
  - b. Do we want to meet Sunday to review?
    - i. Aim to have the study completed by Sunday night?
  - c. Presentation Monday
    - i. Slides due at noon Monday
    - ii. Practice?

### Action Items

- 1.
